NATIONAL NETWORK OF SCHOOL PSYCHOLOGISTS WITH KNOWLEDGE OF BLIND AND VISUALLY IMPAIRED CHILDREN AND YOUTH

Over the past eight years, the American Foundation for the Blind has sponsored workshops for school psychologists on assessment of visually impaired students. Three were held in 1974, two in 1976 and 18 regional workshops were held under a U.S. Department of Education grant from 1979 to 1982.

What follows is a state by state listing of the graduates of these workshops. A few psychologists who attended the earlier workshops could not be located during a survey made in 1979. Consequently their names have been omitted from the present list.

The vast majority of the persons listed are school psychologists. A few are psychologists in other fields, such as rehabilitation. In the case of Texas, educational diagnosticians and school psychologists share in the assessment of visually impaired students. For this reason both attended the Dallas workshop and both are included in the Network list.

It should be noted that this list is not to be construed as a comprehensive listing of all psychologists with knowledge of blind and visually impaired children, or even of all such psychologists known to us. It consists of only those who participated in the above mentioned workshops.
